

ANA ISABEL AGUILAR VÁZQUEZ

WORK EXPERIENCE

Test engineer

IBM

October 2022 to now
(4 months)

- Test servers, performance tests to verify the different parts of the server.
- I use linux and variants for the different tests
- I learned about different components of the servers and how to correctly handle the equipment

Trainee in TI department

Tojol - ingeniería y valuación

Development and testing in the "alpha" and "avaluexpress" projects, in the company "TOJOL - ingeniería y valuación".

Testing and contributing to the realization of the website "tojol".

January to June 2022
(6 months)

- Develop together with a partner the current page of the company
- Test all the pages and programs that you currently use for the daily activities of the company
- I found and solved the different "bugs" that they had in the pages that they already managed and in which we developed

UDC Intern

TI departure

September 2021 to December 2021 (4 months)

- I tested the web application and the apk that was developed
- Coordinated communications between multiple developer teams
- I was part of the educ project, I tested most of the project
